When the ethnicity of economically disadvantaged students is compared with the ethnicity of all students, Hispanic and African-American students are over represented. Hispanic students (in the 2018-2019 Fall Collection) are 26.8% of all students but, make up over 50% of the economically disadvantaged subgroup. The African-American students are 9.9% of all students but make up 20% of the economically disadvantaged subgroup. This over-representation of Hispanic and African American students in the economically disadvantaged subgroup continues to be a concern for the campus.

Bellville High School had, during the 2018-2019 Fall Collection, a student ethnic and racial distribution of 9.9% Black/African-American (up slightly from last year), 26.8% Hispanic/Latino (down slightly from last year), 61% White (unchanged), 0% American Indian/Alaskan (unchanged), 0.4% Asian (unchanged), 0.14% Hawaiian/Pacific Islander (unchanged), and 1.6% were students with Two or More Races (up slightly from last year).

Recommendations

- Tutoring in the core subject areas helped students who had previously failed EOC meet the passing standard. Also 95.9% of 2019 seniors met EOC requirements. We will continue to offer EOC specific tutoring to those students who did not meet the passing standard.
- Identified students will be assigned a remedial class period during the school day, in the content area, as well as having the after-school EOC tutorial option.
- Attention will be given to all students to increase the attendance rate to 97%.

Attendance

The attendance rate for 2018-2019 was 96.5%, which was a .08% decrease from the 2017-2018 school year. Emphasis and focus will be placed on at-risk students.

Ethnicity
African American

% Attendance
93.3%

Hispanic / Latino	96.6%
White	96.9%
American Indian	0.0%
Asian/Pacific Islander	98.6%
Two or More	95.2%
Campus	96.5%

We fell short of our goal of 97% by only 0.5%. We are continuing with the exemption policy for semester exams for those students that have excellent attendance. This policy has helped our attendance rate go up in the past by serving as a motivational tool to encourage daily attendance.

TELPAS

Of the 34 LEP students at Bellville High School, 3.4% scored at the Beginning Level, 38% scored at the Intermediate Level, and 50% scored at the Advanced Level, and 8.8% of the students scored Advanced High.

Technology

We will continue the “Bring Your Own Device” policy that has been implemented in BISD. The students can bring any internet enabled device/phone/tablet. These devices are to be used at the discretion of the classroom teacher. Mobile Chromebook carts consisting of 30 Chromebooks is available for teachers to check out. Multiple access points are available for wireless internet coverage throughout all buildings. All classrooms have a smart board that allows teachers to have interactive lessons.

Curriculum and Instruction

All teachers at BHS that teach core courses will use the TEKS Resource System to ensure the curriculum they are teaching is aligned with state standards.

Staff Development

Our faculty was polled to determine what staff development topics they would prefer.

1. Continuing updates related to student discipline.
2. Updates on inclusion procedures in the classroom
3. Content-specific professional development for instruction

Special Education

Bellville High School is continuing to see an increase in special education students entering high school. This is possibly a result of new initiatives for identification of special education students, including dyslexia. We will continue to teach resource English and Math. Inclusion classes will be supported by Special Education teachers and

paraprofessional staff members. We also have the Enrichment Room available for those students who need a quiet place to work or take a test.

Homeless

During the 2018-2019 school year BHS, we had six students who were listed as homeless. We had two students who qualified as homeless and were also coded as an Unaccompanied Youth(did not live with a parent or guardian) at least part of the time.

Parental Involvement

In the Fall, BHS had an open house that was well attended. This year we had just over 400 parents attend. This is when parents are able to go to their student's classes, meet the teacher, and get an overview of the class and a copy of the class syllabus. Parents can also check student's attendance and grades through the use of the Parent Portal system. Parents are involved in numerous support functions/organizations such as Breakfast of Champions, Athletic Booster Club, Brahmadora Booster Club, Band Boosters, BEST (Bellville Engineering, Science, and Technology) Boosters, FFA Alummi, Academic Excellence, Senior Serve, and Project Graduation. BHS faculty members communicate with parents either by phone, email, or personal contact concerning academic, discipline, or for praise.

Community Involvement

Community involvement is more important than ever. With the state funding concerns, all budgets have stayed constant. Our community this past year has been very generous. Businesses sponsored 6 students to attend boy's state and 5 students to attend girl's state. The community is involved in sponsoring silent auctions, golf tournaments, fundraisers, and skeet shoots to support athletics, academics, and vocational programs.

State Compensatory Education

During the 2019-2020 school year, state compensatory funds will continue to be utilized for summer school. These resources will allow students to stay on grade level by helping them be successful in class, on state assessments, and improve our completion rate. We will continue to use our SCE resources to fund tutorial programs that have been quite successful. Our At-Risk Counselor who is partially funded by SCE funds meets regularly with our at-risk students evaluating their academic performance. Also our 504 instructor, who is partially funded by SCE funds, is available as a valuable resource for at-risk students needing additional academic support.

Pregnancy Related Services

Students who become pregnant are to report their condition to the school nurse, counselor, or principal. Pregnancy Related Services (PRS) are support services a pregnant student receives to help her adjust and stay in school during the prenatal and postpartum periods. These services are provided:

- While the student is still attending classes on her assigned campus
- When the pregnancy prevents the student from attending her regular classes
- During the postpartum period

Pregnancy related services include:

- Documentation of parent and physician contact
- Communication with parents as to specific services provided
- School nurse having regular contact with student to record statistics (i.e. blood pressure, weight) and for counseling on health issues
- Academic counseling
- Compensatory Education Home Instruction (CEHI) during any prenatal confinement period that is documented as a medical necessity by a medical practitioner licensed to practice in the United States as well as during the postpartum confinement period
- One final follow-up visit with the school nurse within 3 days of students return to school after delivery to complete documentation and withdraw the student from PRS

Career and Technology

For the 2019 - 2020 school year, Bellville High School will continue to concentrate on the following career clusters:

- Agriculture, Food, and Natural Resources
- Audio/Video Technology
- Business and Marketing
- Human Services: Education
- Science, Technology, Engineering, and Mathematics (STEM)
- Transportation, Distribution, and Logistics
